On-Q Intercom Systems

SIMPLE, STYLISH COMMUNICATION.

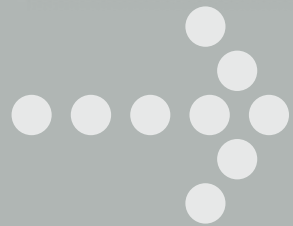

Those ugly, record album-sized intercoms from the '70s are history. On-Q Intercom Systems are designed to enhance — not detract from — your home décor. And they're built on industry-leading technology that makes home communication as easy and as efficient as possible.

Available in both broadcast and room-to-room versions, On-Q Intercom Systems will help keep your family in-sync throughout your home and even outdoors. From your front door to your new baby's nursery to your poolside patio, an intercom system from On-Q is a simple and effective solution for family communication.

Selective Call Intercom System

FLEXIBLE, PERSONALIZED FAMILY COMMUNICATION.

Welcome to the next generation of personalized home communication. The On-Q Selective Call Intercom System keeps each member of your family connected anywhere inside or outside of your home through elegant, wall-mounted units about the size of a decorator light switch.

So whether you're listening to the baby in her crib while telling the other kids lunch is ready, or screening visitors at the front door while answering email, the On-Q Selective Call Intercom offers advanced technology that can meet your family's whole house communication needs and expand as those needs grow.

This innovative communication system offers capabilities that go far beyond your typical broadcast intercom system, such as:

- Direct communication with individual rooms
- Simple, user-friendly navigation
- Personalized features like 20 door ring tone choices
- Room-to-room caller ID
- Simultaneous conversations from up to 3 locations
- An elegant, contemporary system design

Selective Call Intercom Room Unit

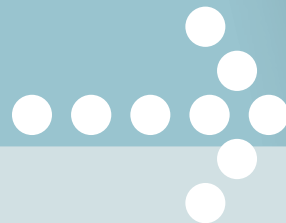

Each room unit enables convenient whole house communication at the touch of a button, and they display system status with simple, on-screen icons. You can also personalize your system to fit your lifestyle with room names, door tones, and color schemes.

HANDS-FREE REPLY ENABLES CONVENIENT COMMUNICATION FROM ANYWHERE IN THE ROOM

KEEP THE COMMUNICATION LINES OPEN

Tired of shouting to family members? Wish you could know what's going on in three places at the same time? The Selective Call Intercom's advanced technology makes it easy to do this and more. You can listen to your sleeping baby in the nursery, remind your teenager to start his homework and tell the delivery guy at the front door to leave your package on the porch—all while paying the bills in the kitchen.

Broadcast Intercom System

A SIMPLE SOLUTION FOR FAMILY COMMUNICATION.

Your life is stressful enough as it is — communicating in your own home shouldn't be so hard. The On-Q Broadcast Intercom System lets you communicate with anyone, anywhere in your home, at the touch of a button. And it installs in a small, attractive package that blends in with any decor.

So whether you're listening to the kids out by the pool while working from your home office, or keeping an eye on the front door for that delivery you've been expecting, On-Q's Broadcast Intercom System will simplify your life — and keep you in touch.

Designed to make home communication easier, this broadcast system includes innovative features like:

- Broadcast communication throughout the house
- Hands-free reply from every unit
- Multi-level volume controls with sleek, backlit keypads
- High quality speakers and microphones
- An attractive design that matches any decor

Broadcast Intercom Main Console Unit

This is your main control station, typically installed in the wall in a central location like the kitchen or sometimes in a more private area like the master bedroom. From this unit you can monitor the status of your entire intercom system.
